

Professional Testimonials

“The Wellness Filter is the best water treatment system I have ever seen. The wave energy is also the highest I have ever seen...no other system even comes close. While reverse osmosis and distilled waters are very clean, they are energetically dead and not healthy.”

Dr. H. Hotta, Hotta Hospital

“We have found that the Wellness Filter® takes water to a new level in purity and performance. Taking nutritional products with Wellness Filter® water gives the consumer the ultimate health benefit.”

Jeff Lioon, President
Douglas Laboratories

“We have seen virtually everything ever offered in the way of water purification. The Wellness Filter® is in a class by itself and offers qualities and benefits that are outside the reach of conventional water filters. We believe that the Wellness Filter® product line will change the way people look at water in the future.”

John Douglas, Paragon Water Systems

“The Wellness Filter® is the most amazing water purification system I have ever seen. I am taking mine with me to my newest development and can't imagine a quality home without one in it.”

Craig Perna, Developer of Addison Reserve and
Mirasol Golf Communities

“We have been very impressed with the improved quality, taste and feel of our clubhouse water since installing a large Wellness Filter last year. Club members have also commented about the improved taste of their drinks because of the water/ice. I have one for my new home, showing noticeable benefit in hair and skin care but household plants are thriving as well. We are now looking at numerous applications of using Wellness Filter® water on our golf course”.

Jeff Reynolds, Owner/Developer
Indian River Club, Vero Beach, FL

Restaurant Testimonials

“We have experienced the Wellness Filter® in our restaurant for only a month and I must tell you the results are incredible. The Wellness Filter has improved the quality of our sauces, soups, and vegetables, and we are now offering our customers Wellness Filter Water instead of bottled water. We are very happy with our decision to install your filter at San Domenico.”

Tony May (Restaurateur of the Year 2000)
San Domenico Restaurant, NYC

“Our chef reports better tasting stocks, pasta, shrimp and rice since switching to the Wellness Filter®. Our dishwashers use less chemicals and steamer equipment performs better. We have eliminated our expensive water softening system and estimate that the unit will pay for itself in only a few months.”

Martin Patton, President
Christophers Restaurant

“Wow! The Wellness Filter has been a tremendous benefit to Jack's and it has my unequivocal endorsement of this product to the restaurant industry.”

Brad Rosenstein, President
Jack's Oyster House
